

International Physics Competition

Representative Activities

Edition of 2026

1 Representative Activities

Below is a list of suggested activities for IPhyC Representatives. These ideas can support your outreach efforts. Be sure to document and submit your actions through your Representative account. You're also welcome to explore additional initiatives beyond this list.

1 Promote IPhyC on Social Media
Help spread awareness by sharing official IPhyC posts and information across platforms such as Facebook and Instagram. Tag the official pages to help increase visibility.

2 Add Your IPhyC Representative Role to Profiles
Display your IPhyC role proudly on your social and professional platforms like LinkedIn or Facebook. You can include a link to your representative profile.

3 Share IPhyC with Friends and Classmates
Talk to peers in your school, university, or community about IPhyC, explaining what the competition is and why it's exciting. Encourage them to participate.

4 Talk to Teachers and Coordinators
Introduce IPhyC to teachers, club mentors, and school officials. Provide information about the educator platform and special awards for schools.

5 Present IPhyC in Classes or Clubs
Give a brief presentation about the competition during a class session or club meeting to spark interest among students.

6 Distribute Posters and Flyers
Print and hang official IPhyC posters at school, community centers, or libraries to attract attention. Digital copies can be found on the IPhyC website.

7 Start a physics Club or Group
Form a group at your school to explore physics problems together, host problem-solving sessions, or use IPhyC problems to build engagement.

8 Organize physics Workshops or Events
Plan events like coding workshops, project showcases, or Q&A sessions where you introduce IPhyC and physics topics in an interactive way.

9 Create a Local Social Media Group
Establish a local WhatsApp or Facebook group for your school or city to coordinate IPhyC efforts and share updates.

10 Collaborate with Local Organizations
Work with local tech hubs, clubs, or institutions to promote IPhyC or co-host events that highlight the importance of physics.

11 Share IPhyC through Newsletters or Blogs
Submit a short article about IPhyC to your school's newsletter, student blog, or internal communication platforms.

12 Encourage Other Schools to Join
Extend outreach to other schools or universities in your area. Offer to share materials or connect them with the IPhyC organizing team.

13 Arrange Local Meetups
Organize informal meetups for interested students to discuss physics topics and learn more about the competition together.

14 Support the Qualification Round at Your School
Coordinate with teachers to hold a scheduled Qualification Round session and assist participants in preparing and submitting their solutions.

15 Represent IPhyC at Local Events
If your school or city hosts academic fairs, tech fests, or STEM days, represent IPhyC by setting up a booth or delivering a short talk.

16 Inspire Through Your Own Participation
Lead by example—participate actively in IPhyC and share your journey and insights with others to motivate them.
